

Shrinidhi Holla

Full Stack Software Developer | Java | Spring Boot | Angular | SQL

📍 Bengaluru, India | ✉ shrinidhiholla2@gmail.com | 📞 +91-6363042518

Professional Summary

Full Stack Software Developer with 3 years of experience designing, developing, and optimizing enterprise applications. Exposure to Java and Angular development, with proficiency in Spring Boot, Spring Batch, SQL, security (Okta), and observability (Grafana, Datadog). Skilled in building scalable APIs, migrating legacy applications, and modernizing enterprise platforms. Experienced in cross-functional collaboration, hackathons, and delivering Proof of Concepts (POCs) in emerging technologies such as Gen AI and LLMs (Gemini, Vertex AI).

Technical Skills

Backend: Java, Spring Boot, Spring Batch, REST APIs

Frontend: Angular, TypeScript, JavaScript, HTML, CSS

Database: Oracle SQL, MySQL, PL/SQL

Security: Okta, JWT, OAuth 2.0, RBAC

DevOps & Tools: GitLab CI/CD, Jenkins, Kubernetes (K8s, Argo-workflow, and Harbor), Grafana, Datadog

Cloud & AI: Google Cloud Platform (GCP), Vertex AI, Gemini LLM

Other: Agile/Scrum, Microservices Architecture, Git, Jira

Professional Experience

- Cognizant Technology Solutions – Bengaluru, India

Software Engineer (Associate) | Nov 2022 – Present

- Designed, developed, and maintained Spring Batch jobs and RESTful APIs to automate large-scale data processing for a leading retail client, improving data consistency and reducing manual processing time by 30%.

- Collaborated with cross-functional teams to build Angular-based dashboards for end-users, ensuring seamless integration with backend services.
- Migrated multiple applications from Java 11 to Java 21, modernizing Spring Batch jobs and APIs by replacing XML configurations with annotation-driven setups.
- Enhanced application security by migrating enterprise applications from ADFS to Okta, implementing OAuth 2.0 / JWT authentication for secure user access.
- Built Grafana dashboards to visualize and track DORA metrics (deployment frequency, change failure rate, lead time for changes, MTTR).
- Developed POC to migrate applications from VMware (NG-Dashboard) to Kubernetes on-prem (KON), streamlining deployment and resource utilization.
- Contributed to multiple project proposals by preparing effort estimations, timelines, and feasibility assessments, supporting client decision-making and new business wins.
- Actively mentored junior developers and beginners, providing guidance on Java, Angular, and Spring Boot best practices, code reviews, and project onboarding.
- Helped improve team efficiency and reduced ramp-up time for new joiners.
- Participated in multiple Generative AI hackathons, leveraging GCP Vertex AI and Gemini LLM to build innovative AI-driven prototypes for enterprise clients.

Education

Bachelor of Engineering (B.E.) – Information Science
[Jyothi Institute of Technology], [2022]
